Leading Southern journals contain editorials endeavoring to reconcile the people to lose their slaves, proving that they are benefitted by the new order of affairs. South Carolina is overrun with horse

thieves and robbers. Large quantities of cotton and tobacco are being brought to light at Montgomery, Ala., and a brisk trade is being

opened. The new state constitution is probably defeated in Missouri.

General Sherman will arrive in Chicago to-night. General Grant will reach there on Saturday.

During the panic in France, relative to the expected interference of the Washington government in Mexican affairs, large orders for cotton were sent to England, in the belief that hostilities with the United States were probable.

Jeff. Davis was placed in irons for three days, on account of unruly conduct. His health being poor, he has been allowed better rations than are usually given to prisoners.

Secretary Seward's health continues to improve. For several days past he has of the Union and Constitution, overbeen at the State Department nearly all day, attending to business. Gold closed at \$1.371.

THE whole South is now profoundly quiet. There is railroad travel from Washington to South Carolina. There is tele priceless legacy with their lives. Their graphic communication between Washington and central Georgia, which will presently he completed to Montgomery and Vicksburg. The lines of telegraph between Memphis and New Orleans have been opened, and all the old connections will soon be resumed. Steamers traverse all the rivers of the South, and preparations are everywhere being made for the resumption of business.

THE Terre Haute Journal gives a very gloomy view of the condition of morals in Indianapolis. That city contains a population of nearly twenty thousand souls, or more properly persons. During the past year there have been arrested there for crime, three thousand two hundred and thirty-one persons-nearly one-sixth of the whole population.

Indeed, I may, in reply, have employed language of a directly menacing character. Let me declare to you now, though in all frankness, that I was heartily ashamed of having used such language immediately after I had done so, and that I seized an early opportunity of making a formal atonement for my fault, in open Senate, and in the hearing of the country, which formal atonement was repeated on more than one occasion. Still I must confess that I can scarcely blame any one for applying to me an epithet which, it is evident, I did so much to justify; and if you and other controllers of the public press still think that the offense which I committed on the occasion referred to, is really of an inexpiable nature, I will have, with as good a grace as possible, to submit to wear this

War Department,.
Adjutant General's Office,
Washington, D. C., Jude 2.

General Orders No. 108. Soldiers of the armies of the United States. By your patriotic devotion to your country in the hour of danger and alarm, your magnificent fighting, bravery and endurance, you have attained the supremacy thrown armed opposition to the enforcement of the laws and the proclamations forever abolishing slavery, the cause and pretext of the rebellion, and opened the way for the rightful authori-

ties to restore order and inaugurate peace on a permanent and enduring basis on ev-ery foot of American soil. Your march-es, seiges and battles, in distance, dura-tion and brilliancy of results, dim the lus-tor of the world's results, dim the luster of the world's past military achieve-ments, and will be the patriot's precedent

In obedience to your country's call you left your homes and firesides, and volunteered in its defense. Victory has crownhonors a great and free nation can accord. having discharged the highest duty of the

## Wholesale Exades from Car

That a wholesale emigration from Canada, says the Montreal Transcript, to the neighboring States has set in, is painfully evident from the reports that reach us from all parts of the country. Nearly every exchange that comes to hand tells of the rapid decrease of population in their respective localities, and all sorts of con-jectures are indulged in as to the cause of the exodus. The cause is, we think, obvious enough—scarcity of money, and con-sequent inability to afford employment to

the people.

There is a wide field in Canada for productive labor, but the capital is wanting, and a general stagnation is the conse quence. There is, of course, capital in the country; but, unfortunately, it is mostly in the hands of men who are destitute of the spirit of enterprise. As we have already said, however, there are good prospeets of a favorable change. The cury is at present "under a cloud," there is good reason to hope that the coming fall will witness a great change for the

The crops, to the failure of which in past years is due in a great measure the general depression, everywhere gave promise of an abundant yield; and if the hopes of a bountiful harvest this year are realized, the country will begin to recover its Fort Dodge, a few days since, destined to former prosperity, and many of those whom the present hard times have driven away will no doubt find it to their advantage to return to the Province. Meanwhile the fact should be impressed upon our people that, gloomy as things are here at present, emigrants will fail to better their condition by going to the United States, where labor is already super-abundant, and the prospects for the future are by no means encouraging.

THE NEGRO QUESTION. There is no question that disturbs your minds, which you will hardly dare to think of, however much it may concern you, much less to hear it spoken of. In speaking of which, I know I shall say some un-

pleasant things to you! You know, or you ought to know, that the slaves are free; that there is no power save Omnipotence, can make them otherwise, and the sooner you prepare for it the better. I see on the outside of this crowd more or less colored people. I do not want them to misunderstand me. Freedom does not mean a life of idleness; it means this, that they are free to work and free to contract with whoever wants their labor; it does not mean that they are free to gamble, steal, and cut each other's throats. This spirit which the negro has manifested is not a spirit of viciousness. but a spirit which arises from an uncertainty as to what their future will be. Do not suppose that I am putting any ideas in the heads of the colored people, advising them to make any exactions which they would not otherwise think of, for I know there is among the colored people a great deal of intelligence, and there are certain things for which they will clamor until they are conceded, and the sooner they are conceded the better for all concerned. The colored people will demand -First, that they be allowed the right to educate; second, that they be allowed to testify in courts of justice; lastly, that they be allowed to vote. I can see reasons why the first right was refused when you had slavery, but now there exists nothing that should prevent them from educating themselves. The safety of your country is not going to be imperiled by I think that you will agree with me, that the better educated a community is. the better that community will be. Whatever reason did exist, it does not exist now. Then as to his being allowed to testify in the Courts. That is denied, I believe, in all the Southern States and most of the Northern States. But the world moves.

man being elected to office by colored votes You will agree with me that a certain degree of intelligence is necessary for a man to vote. You allow men to vote who can neither read nor write, and in some of the States those who cannot even speak the English language. This is the case in the State where I reside. I know that in the State where I have the privilege of living, the colored man is deprived of the right of free suffrage, for we have our prejudices like yourselves. I would ask you the question, if the colored man who is able to read and write is not able to vete understandingly, as well as the white who can do neither? I think you must answer in the affirmative.

I remember the time when a white man, if he was interested in a suit, could not

testify, but that barrier is now broken

down. It is said that the negroes are giv-

en to exaggeration: if so, that should go

to their credulity, and there can be no pos-sible reason why the negro should not be

allowed to testily. But the proposition which you will dislike to receive of all

others, is that they should be allowed to

I would have no hesitancy in submitting it to any candid slaveholder, I care not how many slaves he may own. I find this to be the fact, those holding the largest number of slaves take the most generous and enlarged view of the subject, while the most rabid are those who own some broken down spavined negroes. [Laughter.]

On this subject he concludes as follows: What I have said, I have said from a sense of duty, knowing full well that it would not be popular. I have said it in little hope that you would receive well the suggestions and act upon them in the manner I have suggested; but if you will simply allow free discussion in a friendly way, that is all I ask, for I know well all those other things will follow in due time.

## **Undying Plants.**

A letter from Guamas, Sonora, Mexico, describes some of the strange and beautiful things found in that remote region, including a species of evergreens, as follows:

Passing on beyond Arbechi about two miles, we struck the bed of a stream, through which we commenced our progress to another range of mountains, whose slope came to the very edge of the channel way. It was here that we found the north sides of rocks which faced the stream covered with what at first seemed to be the most exquisitely beautiful green mosses that ever decked the rugged sides of a mountain. The entire sides of the mountain at this spot were blooming in the livliest green. We dismounted to pluck some of these plants, and found that they were not strictly mosses, though undoubt edly they belong to that class of plants.

Each one had separate roots firmly holding it to the rocks, and from these roots grew out a plant that opened to the diameter of a common teacup or saucer, i and spread itself flat on the face of the rock. The leaf somewhat resembles in texture the arbor vitae.

These plants bear the name of "siempre vira"—always living, or always alive. Their peculiarity is to come out into beautiful green life in the rainy season, and then, when all moisture has deserted them, to turn as brown as autumn leaves, and roll or curl themselves up like a half as uninteresting to see as a brown stone, seemingly dead. But with the return of moisture they uncurl their leaves and spread out again as beautiful as ever.

Another peculiarity of the plant is. that you may pluck it, throw it into; your enddle-bags and keep it six months, and then place the roots in a cup or saucer of water when you retire for the night, and in the morning you will find by your side a lively green plant. It looks like magic but I have tried it to my surprise and dewith the continued supply of moisture. | Chicago Tribune.

The President and the Sunday School Death of President Lincoln in the

On Monday last the Washington City Sunday school Union held its twenty fifth anniversary. Five thousand children and officers of the 8th Regt. Wis. Vet. Vol. Inseven hundred teachers marched in pro- fantry, held on the evening of the 7th inst., ession by the door of the President's resito take such action as might by them be dence. While marching by they sang a patriotic bymu, "Victory at last." The Intelligencer savs:

The President was frequently cheered, and was the recipient of a large number of boquets, which were thrown into his hat until it was so full that a basket was brought fourth to contain the floral gifts. After the children had marched past the residence of the President, they marched down Fifteenth street, and thence to the White House, where, after they had as-sembled, the President took position in front of the outside railing and delivered an address.

He said: Intrinsic merit should be the base upon which all should stand. He would pull none down, but would elevate all—level upward, not level downward. His notion had always been that the great mass of the American people could be elevated. If all will be elevated, we may become the greatest and most exalted nation on the earth.

My little daughters and sons (said the speaker) give me your attention while I say, honestly and truly, that if I could inform you of something, and put that into immediate effect, which would tend to the elevation of you all, I would be prouder of it than to be President forty times. [Applause. Hero is the Executive Mansion and yonder is the Capitol of a great na-tion, and you look to those who make and execute the laws as persons sublime and grand. But just think for a moment. You are the crop behind us. All those buildings and all of this Government will States, having perpetrated the great felo-one day pass under your control and be-ny of treason, which was the primary come your property, and you will have to government, of religion and humanity. And let all boys consider—every mother's son of them-[laughter]-that each one is born a candidate for the Presidency. [Laughter and applause.] Why not, then, commence at once to educate yourselves for the Presidency? And he would say to the little girls, that while they could not be Presidents, they are born candidates for the wives of Presidents. [Laughter.]

The speaker then eloquently referred to the ancient Roman mothers, who ever took pride in infusing proper ideas into the minds of those who afterward became distinguished in life. So, with them, each mother of to-day should feel that her children are her greatest jewels.

When we look at these boys and girlsat the banners which they carry—at the flags with stripes and stars upon them, which they bear aloft; when we look upon the brave men and gallant officers around us, and remember what they have been contending for, we feel that we can best preserve this government if we rear up our children properly, and make this, as we can, the most intelligent portion of God's hospitable globe. The stars and stripes are not an unmeaning symbol when we look back through the din of battle and see what it has cost to perpetuate this Government; and should we not, then use every effort to bring up properly these children, whose cause has been sustained by strong arms on the field of buttle? Then, my little sons and daughters, (said the President, talking as a father to his children) let me say to you, educate yourselves; be industrious and persevering; store your minds with all that is good put all things worthy of preservation in your brain, and your intellects will expand and grow. And in conclusion I say again may your little song of victory be heard in heaven. God bless you.

"The Society of Friends in Virginia, North Carolina and East Tennessee consists of thirty-seven congregations, numbering about 3,500 persons.

"During the war, the Virginia Meetings maintained a close connection with the Baltimore yearly meeting, to which they belonged, and these in North Carolina and East Tennessee (3,000 members, constituting the North Carolina Yearly Meeting) continued 'annual epistles' to the Northern and Western Yearly Meetings, breathing the warmest expressions of love

and unity.
"The discipline of the society, prohibiting the owning or hiring of slaves, not only remained inviolate, but the members bore an open and firm testimony against slavery and the war, and were loyal to the United States Government. This subjected them to some persecution, but the society, nevertheless, received an accession of

over five hundred members.
"Immediately upon the surrender of Johnston's army, their brethren of the North and West, raised over twenty thousand dollars to replace their losses by the war, and to assist them in ro establishing schools. On the other hand, two prominent ministers of the South are already traveling to the North on a gospel mis sion accredited by the usual certificates.'

[From the New York Times.] Observant gentlemen who have recently traveled extensively through the States of 1. All civil or diplomatic officers or the late Southern Confederacy, say that agents of the so-called Confederate govmen are much more abundant there than ernment. they had anticipated. The able-bodied male population are by no means killed off by the war. High officers of the Confederate army say that Jeff. And consequently tens of thousands and hundreds of thousands of men were enabled to escape a hated service, though tees from the United States many of them had from time to time to pose of aiding the rebellion. conceal themselves, or resort to evasion or

The Southern Confederacy, at the beginning of this year, had about two hundred thousand troops actually in its service. These were drawn from a population of about six millions, including to some extent, the Border States, as well as the Trans-Mississippi States. Now, allowing one-tenth of a population as capable of bearing arms, (a large proportion for the South), we would have six hundred thousand men, in all, fit for military duty. Two-thirds of these, or four hundred thousand men, according to the estimate of Jeff. Davis, were at their homes in their respective States, evading or refusing military service: and by the recent disbandment of the armies of Lec, Johnston and Taylor, one hundred thousand mere able-bodied men have been sent home, making quite half a million now in the States of the South. There are of course modifying elements upon those statements : alter the facts.

civil iaw. They were soldiers in the service of the country; they had left camp, on the night in question, without authority, and for the purpose of robbery. They went directly to the house of Colonel Cook, and demanded of him his money. He begged them, for God's sake, not to kill him. A shot was fired, and he fell. He lay a few minutes, and then, on his hands and knees, crawled out of the house Lincoln, society has been bereft of one of to a barn near by. The flends then, in cold blood, butchered mother and child. They then sacked and fired the place to wipe out the last trace of their crime. This is the story of their crime. Now we will give the scene of retribution —the last these unfortunate men ever gased upon on earth. The stores were all closed by military order. The invincible militia was erdered out, and, led by a feeling of morbid curiosity, thousands flocked to the scene. The place chosen was near the machine shop, and outside the inner fortifications. A hollow square was formed, surrounding the gallows—a rude wooded structure about twenty-five feet high, platform about thirteen feet from the ground. The following regiments formed these men belonged to. At 11 o'clock the

THE CULTIVATOR OF CORN.-The large mount of corn to be planted this season, renders it necessary for the producer to have some improved implement for its cultivation. To meet this demand, I am now building " The Badyer State" gig corn planter.

After six months experimenting with ifferent models, we have one which we are willing should be put to the test, and that it should stand or fall on its own merits. A lengthy description does not seem to be necessary. We will simply say that we are confident it will perform all that any cultivator will, and all that any farmer will require of it. It has six shovels, or four, as desired. The shovels are so arranged as to cultivate wide or narrow, shallow or deep; and they all have a very easy side motion. To say that they are made under the supervision of G. F. Lane, is a sufficient guarantee that they will be well made. In fact, they will be warranted in every respect.

The Badger State gig cultivator will be sold this season at \$50 at the shop. Call and see it at the shop one block outh of the Hyatt House.

THE CHAMPION

CLOTHES WRINGER

The only Wringer in use that is festened to a tub-by the Patent

CURVED CLAMP.

Which has an equal bearing on the tub the whole length of the Wringer, while all other Wringers are merely fastened to a SINGLESTAVE at each end. The Curred Champ not only affords the most secure fastening of any in one, but it these not strain the tub like all other methods of fastenings. A child eight years old can securely fasten the Wringer to my size TUB, POUNDING BARKEL Oit BOX.

The Bollers are instanced to the shaft under HALLY'S PATENT, which is acknowledged to be the

Most Effectual Fastening in use The shaft being covered with cement and closely wound with strong twine, prevents the rubber from coming in contact with the shaft. If the rubber is allowed to come in contact with the shaft, the sulphur in the rubber used to on the iron soon causes the rubber to become loose, which renders the Wringer useless. This is entirely overcome by using Hubey's manner of fastening, which not only prevents the Rollers from becoming loose on the shaft, but renders the use of Cog Wheels (used on some Wringers) entirely unnecessary Wringers with cug wheels town AGREAT DEAL HARDER than those without, a fact which every one in want o a Wringer should prove by trial before purchasing one with cog wheels.

cith cog wheels.

The Rollers need no adjusting to wring ordinary

The Rollers need no adjusting to wring ordinary clothing, but to wring very heavy articles, they can be adjusted as desired, which saves much hard labor, and straining of the Wringer.

The Rollers turn in boxes of hard maple wood, which are belied in tailow, consequently need no ciling, while Rollers that turn on iron soon rust, which cause them to turn very hard unless frequently offed. Oil has a very bad effect on the rubber.

Therais no iron about the Wringer that can come in contact with articles being wrung. Besides saving much hard labor, the Wringer will soon pay for itself in the saving of clothing.

Having been so successful in selling these [Wringers, as to never have one Extraxed, I invite competition, and desire any one purchasions." HASHEESH CANDY. The Great Oriental

A most delightial EXHLIERANT CONFECTION-IZED, and has been the theme of song and story among the Persians, Arabians and Assyrians.

True Secret of Youth and Beauty. 50 PER CENT. LOWER THAN

It is a remedy that ought to be in every House on account of its harmlessness and potency; and above all, because of its exceeding cleapness. It is the cheapest remedy in the world. Colds resultly yield to it.

The writer, the Speaker, the student and the business man, under its influence, seem to gether a new inspiration and new energy, a realiness and keenness of perception unknown before. No Clergyman, Actor, Singer, Lawyer, or in fact any one shoul now without it is an Grant sugs, "It is of great value for the wounded and feeble, and that it is harmless."

Maj. Gen Mitchell, the cellipated Astornomer says the Hasbeesh Candy helped him when all other remedies aired to relieve him, and that it is an elegant compound. The cellipated Dr. Mall of New York, ways the true medicinal virtues of the Hasbeesh Candy are vary great; much greater than yet appears. I could with that a remedy so prefent for good as it is were more generally in use.

qualities, which have acquired for them the eminent
reputation which they enjoy. The Pianos of their
manufacture, on which I have played, are exceedingly
remarkable for their qualities. The bass is powerful
without harshness, and the upper notes sweet, clear

THIRD SERIES, **\$230,000,000**.

By authority of the Secretary of the Tressury, the

undersigned, the General Subscription Agent for the

sale of United States Securities, offers to the public the third series of Treasury Kotes, bearing seven and three-tenths per cent, interest per annum, known as the 7-30 LOAN.

These notes are issued under date of July 15, 1865 and are payable three years from that date in currency, or are convertible at the option of the holder into U. S. 5-20 Six per cent.

COLD - BEARING BONDS

These Bonds are now worth a handsome premium. and are exempt, as are all the Government Bonds, from State, County, and Mun cipalitaxation, which adds from one to three per cent per annum to their value, according to the rate levied upon other property. The interest is payable semi-annually by compons at ached to each note, which may be cut off and sold to any bank or banker.

The interest at 7-30 per cent. amounts to One cent per day on a \$50 note. Two cents " " \$100 " Tem " " " \$500 " " **\$1**960 20 81 Notes of all denominations named will be promptly

formiched upon receipt of subscriptions. The notes of this Third Series are precisely simila in form and privileges to the Eeven-Thirties already sold, except that the Government reserves to itself the option of paying interest in gold coin at 6 per cent. in-stead of 7.3-10ths in currency. Subscribers will deduct the interest in currency up to July 16th, at the time when they subscribe.

The delivery of the notes of this third series of the Seven-thirties will commence on the let of June, and will be made promptly and continuously after that date The slight change made in the conditions of this TAIRO SEBIES affects only the matter of interest The payment in gold, if made, will be equivalent to the currency interest of the higher rate.

The return to specie payments, in the event of which only will the option to pay interest in Gold be availed of, would so reduce and equalize prices that purchases made with six per cent. in gold would be fully equal to those made with seven and three-tenths per cent. in SELF-CLEANING

THE ONLY LOAN IN MARKET Now offered by the Government, and its superior ad-

vantages make it the Great Popular Loan of the People. Economical,

Less than \$200,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be sub scribed for within two months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. #### TWELVE YEARS AGO MOSTETTER'S STOMACH BITTERS was struggling

into notice against the projudices which everything new, however excellent, is doomed to encounter: TO-DAY it stands at the head of all the tonic and alterative prep

erations in existence. Its celebrity has evoked many imitations but no rivals. Physicians pronounce it the CMLY SAFE STINULANT that has ever been introduced in. to the sick chamber. In the Hospitals of the Army and Navy, the surgeons find it the very best tonic for convalescente, and report it as invaluable for sustaining the vigor of troops on the march, as a remedy for scurvy and all scorbutic affections, and as the only specific for sea-sickness. California and Australia have emphatically indorsed it as the Minens' Medicine par excellence, and in Spanish America and all the propice climate, it is considered the only reliable antidote a

There is no mystery about the causes of its success.

It is the only stomachic and alterative in which are

Above is no hystery mount in ectates of its success; It is the only stomachic and alterative in which are combined the grand requisites of a mild, pure, and unitiated vegetable stimulant, with the innest selection of tonic, anti-bilious, anti-scolbutic, aperlent, and depurative herbs, plants, roots, and harks that have ever been intermixed in a menciuml preparation.

The Bitters have this distinctive quality, which is not shared, it is believed, by any tonic, tracture or extract in the world; they do not excite the pulse, though they infuse a wonderful degree of vigor into the nersous system, and strengthen and sustain the whole ph sical organization.

It is also proper to tate that the Bitters are sold exclusively in glass, and never under any circumstances by the gallon or the barrel. Imposters and imitators are abroad, and the only sateguard the public have against them is to see that the Bitters they buy bear the engraved label and note of hand of Messrs. Hostetter & Smith, and the government stamp over the cerk of the bottle.

The Seted Analytical Physician

DR. V. CLARENCE PRICE.

The only Physician of his kind in the West, has met with the greatest success, gained a better reputa-tion, effected more complete cures, visited places the longest without missing an engagement, than any physician that travels, has outlived them all and be-come noted for his skill in treating all chronic dis-success of the

head nerves, kidneys, biadder, wemb and blood, affectiens of the urinary organs, gravel, scorfula, rheumatiam, catarrh, astama, bronchitis, dyspepala, &c.

Our practice, net one of experiments but of twenty years standing, founded on the laws of Nature, with years of experience and evidence to sustain it. Do not tear down, make eick to make well, un harsh treatment, no trifling, no flattering. We know the cause and the remedy needed, no guess work, but knowledge gained by years of experience in the treatment of thuse diseases exclusively, no encouragement without a prospect. Candid in our opiniona, reasonable in our charges, claim not to know everything, or cure everybody, but do claim to reason and common sense. We invite the sick, no matter what their allment, to call, investigate before they abandon hope, make interrogations and decide for themselves, will cost nothing as consulted this place and I shall make my vinits for years regularly on the same days of the week every eight weeks.

I can be consulted at Janesville, Hyatt House, on Saturday and Sunday, the 22d and 23d of July, 1856, Woodstock Exchange Hotel, 24th of July.

READ WHO SAYS SO: From the Hon. Thomas H. Florence From the Hon. Thomas B. Florence From the Hon. Thomas B. Florence

Washinger, Jan. 1st, 1304.

Gentlemen: —Having stated it verbally to you, I have no hesitation in writing the fact, that I experienced marked benefit from your Hoofland's German litters. During a long and tedious session of Congress, pressing and onerous duties nearly prostrated ne. A kind friend suggreeted the use of the preparation I have named. I took his advice, and the result was improvement of health, renewed energy, and that particular relief I so much needed and obtained. Others may be similarly advantaged if they desire to be.

Truly your friend, THOMAS B. FLORENCE.

from John B. Withersham, Esq., firm of Withersham and Hutchimson, the celebrated mann-facturers of Fancy Iron Works, 259 Canal street: I am the rectpient from you of one of the greatest favors that can be conferred upon man, viz., that of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Playthers.

Diarrhoea. During the long time I was suffering from this dis-case, I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to try Hoofland's German Briters. After the use of a few bottles of that valuable medi-cine, the complaint appeared to be completely gradi-cated. cated.

I often inwardly thank you for such a valuable specific, and, when I have an opportunity, cheerfully recommend it, with full confidence in its reliability.

Trait yours, JOHN B. WITHERSHAM.

February 8th, 1964.

Masses. Jones de Evans—Gentlemen: My mother-in-law has been so greatly benefitted by your Hoodand's German Bitters that I concluded to try it myself. I and it to be an invaluable tonic, and unhesitatingly recommend it to all who are suffering from dynepsia. I have had that disease in its most obstinate form—Gattlence—for many years, and your Betters has given me sease when everything size had failed.

Yours truly,

Frem the Hon. Jacob Broom. PHILADELPHIA, Oct. 7th, 1963. Gentlemen:—In reply to your inquiry as, to the offect produced by the use of Hoofand's German Bitters la my family, I have no hesitation in saying that it has been highly beneficial. In one instance, a case of dyspepais of thirteen years' standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third it seems, has confirmed the cure, for there has been so symptoms of its return for the last six years. In my individual use of it, I find it to be an unequalted camic and sincerely recommend its use to the sufferers.

Truly yours, JACOB BROOM, 1707 Spruce.

From Rev. W. D. Seigfried, Pastor of the From Rev. W. D. Seigfried, Pastor of the 12th Beptist Church:

Maistra. Jones of Events—Genilemen: I have recently been laboring under the distressing effects of indiges ion, accompanied by a prestration of the nervous system. Numerous remedies were recommended by friends, and some of them tested but without relief. Your Hoofiand's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters induced me also to try them. I must confess that I had an aversion to Patent Mediciaes, from the "thomsand and one" quack "Bitters," whose only aim seems to be to palm off sweetened and drugged liquor upon the community, in a sly way, and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Very respectfully yours, W. D. SEIGRIED,

From the Hev. Thos. Winter, D. D., Pastor of Roxbury Baptist Church:

Dr. Jackson—Pear Str.: I feel it due to your excellent preparation, Heofiand's German Bitters, to add my testimony to the descreed reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. I did so, and have experienced great and unsupected relief; my health has been very materially benefitted. I confidently recommend the article where I meet with cases similar to my own, and have been assured by many of their good effects.

Respectfully yours, E. WINTER, Roxbourough, Ps.

From Rew. J. S. Herman, of the German Reformed Church, Kutztown, Berks county, Pa. Dr. C. Jackson—Respected Sir: I have been troubled with Dyspepia nearly twenty years, and have never used any medicine that did me as much good as Hoofland's German Bitters. I am very much improved in health, after having taken five bottles.

Yours, with respect, J. S. HEEMAN.
